INTRODUCTORY SECTION

CHARLES D. LOOS
Auditor of State

December 14, 1981

The Honorable Robert D. Orr, Governor
and
The General Assembly of the State of Indiana
and
The Taxpayers of the State of Indiana

We have completed three satisfying years in office as of December 1st. It is time for me to hit the campaign trail for re-election as Auditor in November 1982. The past years have seen many accomplishments, but it wasn't without its problems.

The Deferred Compensation Plan after several months of hard work was offered to the State employees in September of 1981 as a fringe benefit. They now can save their wages for retirement in a tax-free plan. We have now well over 2 million dollars in monies set aside by employees.

Discounts are still being sought after by my agency so that the State can receive the lowest price for products delivered. We are working with the Department of Administration, trying to resolve problems that occur in any procurement and payment process.

We are working closely with the State Board of Accounts regarding the proper procedures for the preparation of financial statements of the State of Indiana. With the Auditor of State having the responsibility for the centralized accounting system and the Board's immense technical expertise in the area of government accounting, we have enjoyed another year of fine cooperation. As with previous years, the financial statements are being refined to agree with the Municipal Finance Officers Association (MFOA) standards as outlined in the revised GAAFR. There are a few areas in which we were unable to completely conform to the standard. The major problem was the entity area. The State has quasi organizations and universities which MFOA definition includes. Our legislature does appropriate monies for the organizations and universities, but we are not responsible for the accounting and financial reporting. The universities receive separate audits by the State Board of Accounts which gives opinions on that particular unit's financial statements. A listing of the units not included in our financial statement is disclosed in the footnotes. The report as a whole is prepared in accordance with Indiana Code 4-10-13-2.

We still maintain the report in two books. Book 1 is prepared as outlined above. You will notice the breakdown of Trust and Agency Combined Financial Statements, an improvement over last year. There still does exist problems in the Fixed Asset Inventory. We are making headway in resolving these difficulties and will have information to the Board for audit purposes by next June.

Book 2 has undergone a change this year. We normally have both the Revenue and Appropriation and Allotment Statements in straight account number sequence; this year it is in agency number order. We had many suggestions pointing out it would be more meaningful to people doing research to have it in this order. Included in this year's edition is Motor Vehicle Highway Distribution Statement, back by popular demand.

The State's financial statements are in an evolutionary process and with each passing year we try to improve them. This year changes are not as drastic as we have seen in the past, since we are near alignment with standards already mentioned. The opinion of the State Board of Accounts is acceptable. We are striving to improve next year's financial statements.

The State of Indiana is now in a financial strain. The offices of Governor, Treasurer, and Budget are working with us as a team to keep the State of Indiana in a solvent position. We know there will be a need for sacrifices and favorite programs eliminated but it will make us a stronger State.

Sincerely,

Charles D. Loos

FINANCIAL SECTION

The Honorable Robert D. Orr, Governor
and
The Legislative Council of the
General Assembly of the State of Indiana:

We have examined the combined financial statements of the various funds of the State of Indiana as of June 30, 1981, listed in the foregoing table of contents. Our examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

As disclosed in note A to the financial statements, the State of Indiana's computerized General Fixed Asset Account Group system is not yet fully operational. Due to this factor the General Fixed Asset Account Group was not audited by us and we accordingly express no opinion thereon.

Nonexpendable Trust and Agency Funds are stated in this report on the modified accrual basis rather than the accrual basis as required by generally accepted accounting principles. This practice does not present fairly the financial position of the nonexpendable trust and agency funds of the State of Indiana at June 30, 1981, or the results of operations of such funds, or the changes in financial position of such funds for the year then ended in conformity with generally accepted accounting principles.

The State of Indiana has reclassified several funds in its system and made prior-period adjustments as necessary to convert its funds to the accrual or modified accrual bases of accounting in order to comply with generally accepted accounting principles. We concur in these accounting changes.

In our opinion, except for the General Fixed Asset Account Group, on which we express no opinion, the accounting basis of the nonexpendable trust and agency funds, on which we have expressed an adverse opinion, and the retroactive effect of the aforementioned accounting changes with which we concur, the aforementioned financial statements present fairly the financial position of the various funds of the State of Indiana at June 30, 1981, and the results of operations of such funds, and the changes in financial position of the proprietary type funds for the year then ended in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year after giving retroactive effect to the change from the modified accrual to the full accrual basis of accounting for all pension trust funds, and the change in the method of accounting for gains and losses on the sale of investments by the Public Employee and Teacher Retirement Funds, as explained in note C to the financial statements, with which we concur.

The accompanying supplemental schedules and related information are presented as additional analytical data, and no opinion is expressed thereon.

STATE OF INDIANA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 1981

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. **Bases of Accounting.** The modified accrual basis of accounting is used for all Governmental Fund Types, Expendable Trust, and Nonexpendable Trust and Agency Funds. The accrual basis of accounting is used for all Proprietary Fund Types and Pension Trust Funds. Budgets are prepared on a cash basis for all funds for which a budget is legally adopted. Budget figures for expenditures in Budget vs. Actual Statements represent Legislative Appropriations and Supplemental Appropriations made during the year. Actual expenditures include both cash disbursements and outstanding encumbrances. Estimated revenues are recorded only in the General Fund.

2. **Definitions of Fund Types and Bases.**
   a. **Fund Types.** There are eight fund types recognized in governmental (fund) accounting. The Auditor of State's accounting system recognizes five of these types: General, Special Revenue, Capital Projects, Internal Service, and Trust and Agency funds. These five recognized fund types are further segregated into three broad categories of fund types: Governmental Fund Types, which include General, Special Revenue and Capital Projects; Proprietary Type Funds, Internal Service Funds; and Fiduciary Type Funds, Trust and Agency Funds.

   b. **Modified Accrual Basis of Accounting.** In the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become available and measurable. Expenditures are recognized in the accounting period in which the fund liability is incurred. In the Auditor of State's accounting system, the fund liability is recognized when goods are received under an encumbered purchase order; other types of expenditure documents are not readily measurable for purposes of accrual, except for personal services which are accrued at year-end only.

   c. **Accrual Basis of Accounting.** In the accrual basis of accounting, revenues are recognized in the accounting period in which they are earned and become measurable. Expenses are recognized in the period incurred if measurable.

3. **Basis of Presentation.** The accompanying financial statements substantially conform to the principles set forth in *Governmental Accounting and Financial Reporting Principles, Statement 1,* issued by the National Committee on Governmental Accounting.

4. **Revenue, Expenditure, and Expense Account Classifications.** Governmental and fiduciary type funds revenues are classified by fund and source. Expenditures are classified by fund, function, activity, organization unit, and principal and sub-classes of objects. Proprietary type fund revenues are classified by fund and source, and expenses are classified by fund and principal and subclasses of objects.

5. **Revenue Sources Susceptible to Accrual for Funds Utilizing the Modified Accrual Basis of Accounting.** The concept of the modified accrual basis of accounting recognizes revenues in the accounting period in which they become available and measurable in a material amount. Revenues deemed both available and measurable, and therefore accrued, were limited to Federal Grants Receivable and General Fund Taxes.

6. **Valuation of Assets.**
   a. **Investments.** Investments are stated at cost for all funds, except Pension Trust Funds, which are stated at amortized cost. The Auditor of State records only those investments purchased by his warrant. These statements therefore, do not reflect those "cash balance" investments (which legally may cross funds of fund types) which are purchased by the Treasurer of State's check.

   b. **Fixed Assets — General Fixed Assets Account Group.** The information for the statewide inventory of land and fixed assets was being accumulated when the annual report was compiled. As the inventory system was not functional by the date of this report, the Auditor of State did not establish a general fixed asset account group. Fixed assets and related depreciation (straight line method) are included in the Proprietary Fund Types and Pension Trust Funds financial statements.

c. **Inventories.** Inventories of supplies and salable goods are recorded only in Proprietary Fund Types. Inventories are stated at cost and are determined by either the first-in, first-out or the weighted-average method depending upon the particular Internal Service Fund involved.

7. **General Long-Term Debt Account Group.** The State of Indiana is constitutionally prohibited from incurring long-term debt. Accordingly, no General Long-Term Debt Account Group is maintained.

8. **Nature and Purpose of Reserves.** Certain reserves are set up within the equity section of the balance sheet of each fund to indicate items that are not currently spendable by the state. These items represent either monies set aside by the legislature for a certain future purpose, monies committed for a specific future expenditure, or monies which, due to that fund, will not be received on a current basis.

a. **Reserve for Long-Term Receivables.** This reserve is established to recognize that certain advances and loans to other funds were loaned on a long-term basis and are not currently available for expenditure.

b. **Reserve for Loans to Local Units of Government.** This reserve is established to recognize that the legislature has set aside certain amounts of money to loan to local units of government for specific purposes. In all funds but the general fund these amounts are loans to individual school units or funds advanced to counties. In the general fund these amounts are:

County Tornado Disaster Loans	$ 1,032,590.80
Economic Development Matching Loans	323,661.00
Flood Control Loans	2,000,000.00
Industrial Development Loans	4,669,746.96
School Diaster Loans	3,031,563.00
Total	$ 11,057,561.76

c. **Reserve for Tuition Support.** This reserve is established to recognize that the legislature has set aside money, the amount to be determined by the State Budget Agency, for paying the distribution to local school units at the beginning of the succeeding fiscal year.

d. **Reserve for Encumbrances.** This reserve is established to recognize that an amount of money has been set aside out of one year's budget for goods and/or services ordered during that year, that will not be paid for until they are received in a subsequent year. If the goods or services have been received in the current year, but the paperwork simply was not processed in time to be paid during the year, the amount is shown in the liabilities section of the balance sheet, not in the reserve for encumbrances.

9. **Budget, Appropriation and Amendment.** Budgets are established for each agency by the State Budget Agency on a cash basis for the purpose of preparing a recommended budget report and budget bill for the budget committee of the legislature. This budget report includes both cash revenues and cash disbursements. A general appropriation act is passed by the legislature each biennium, and with any amounts appropriated by separate act, an appropriation list is certified to the Governor, the Auditor of State, and each member of the legislature, by the Budget Director, to be posted to individual agency accounts within each governmental type fund. The Budget Agency does have a limited authority to transfer such appropriations between accounts within the same agency. The Budget Agency also administers a quarterly allotment system to provide budgetary control over those agency accounts which are within governmental type funds. The State Board of Finance (consisting of the Governor, Auditor of State, and Treasurer of State) is empowered to transfer appropriations from one agency of the state to another, or to transfer amounts from one fund of the state to any other fund of the state with the exception of trust funds.

10. **Encumbrances.** An encumbrance is an amount set aside from the other spendable resources in a fund to pay for a specific amount of goods and/or services that have been ordered by an agency of the state on a formal purchase order. Since these purchase orders could be cancelled or modified prior to the actual delivery of goods or rendering of services, they do not yet represent an expenditure nor a liability of the state, but are merely a reservation of fund balance for a possible future expenditure. At year-end, those encumbrances which represent purchase orders for which goods or services have been received are eliminated from this reserve and the fund liabil-

ity is recognized. (See the discussion above on reserves.) Those encumbrances which represent purchase orders for which goods and services have not been received by year-end do not lapse. Appropriations for the year in which the purchase order was encumbered are carried forward into the succeeding year(s) to be recognized as expenditures in the year in which the fund liability is actually incurred, if not previously cancelled. Increases in such prior-year purchase orders must be augmented by the State Board of Finance, and any decreases revert to the fund.

11. **Vacation and Sick Leave Policies.**

a. **Vacation Leave.** Vacation leave with pay is earned by all full-time employees at the rate on one working day for each full month of employment. Employees working on a part-time basis earn vacation leave at the rate of one half working day per month. Vacation is not earned by hourly, per diem, temporary, intermittent, contractual, or employees working less than one half time. Employees accrue, but may not use, vacation leave during the first six months of employment (twelve months for part-time). If an employee terminates prior to the completion of six months, all accrued leave is forfeited. Employees who have completed ten years of continuous full-time employment (twenty years for part-time) shall receive three bonus vacation days per year on the anniversary date of their employment. Employees who have completed twenty years of continuous full-time employment (forty years for part-time) shall receive five additional (total of eight) bonus vacation days per year on the anniversary date of their employment. There is no limitation to the accumulation of vacation leave, but upon termination of service, in good standing, employees will be paid for a maximum of six calendar weeks of unused vacation leave. (Policy established by State Personnel Division Rules and Regulations)

At June 30, 1981, accumulated unpaid vacation pay benefits, up to six calendar weeks accumulation, equaled $20,497,220.67 for all funds of which the General Fund portion is $12,009,356.04.

b. **Sick Leave.** Sick leave with pay is earned by all full-time employees at a rate of one working day for each full month of employment. Employees working on a part-time basis earn sick leave at the rate of one half working day per month. Sick leave is not earned by hourly per diem, temporary, intermittent, contractual, or employees working less than one half time. Employees who have a minimum of five years of continuous full-time employment, who have exhausted their accumulated vacation and sick leave balances, may receive special sick leave, if approved, amounting to one calendar week of special sick leave for each complete year of continuous full-time employment. There is no limitation to the accumulation of sick leave, but no amounts will be paid for unused sick leave at termination of service. (Policy established by State Personnel Division Rules and Regulations)

B. STATE OF INDIANA — FISCAL ENTITY DEFINED

The State of Indiana, as a fiscal entity, consists of all departments, agencies, boards and commissions whose primary accounting functions are maintained through the Auditor of State's centralized accounting system. Quasi-governmental units are those operating from funds separate from the State Treasury, whose accounts are not maintained by the Auditor. State Universities do receive legislative appropriations paid by warrant of the Auditor of State, but they operate outside the State Treasury and account for their own funds. Accordingly, quasi-governmental units and State Universities are not included in this report. Such units are:

Ball State University
Indiana State University
Indiana University
Indiana University Medical Center
Indiana Vocational Technical College
Purdue University
Vincennes University

Law Enforcement Building Commission
Port Commission
State Fair Board
State Office Building Commission
State Police Building Commission
Toll Bridge Commission
Toll Road Commission
White River Park Development Commission

C. PRIOR PERIOD ADJUSTMENTS

1 **General Fund.** A prior period adjustment was made to recognize the cumulative effect of an accounting error in accrued revenue and the equity transferred to the Capital Projects Fund at June 30, 1980.

2. **Special Revenue.** A prior period adjustment was made to recognize the cumulative effect of an accounting error in accounts payable at June 30, 1980 in the Other Special Revenue Fund.
3. **Capital Projects.** A prior period adjustment was made to recognize the cumulative effect of an accounting error in the equity transferred from the General Fund at June 30, 1980.
4. **Internal Service.** A prior period adjustment was made to recognize the cumulative effect of a change in accounting estimate. The policies of capitalizing fixed assets was changed to conform with the Auditor of State's General Fixed Assets Account Group.
5. **Pension Trust.** A prior period adjustment was made to recognize the cumulative effect of a change in accounting principle from the modified accrual basis to the full accrual basis. The Public Employee's Retirement Fund and the Teacher's Retirement Fund made a prior period adjustment for the cumulative effect of a change in accounting principle for the recognition of gains and losses on sale of investments.
6. **Expendable Trust and Agency.** A prior period adjustment was made to recognize the cumulative effect of an accounting error in accounts payable at June 30, 1980 in the Public Employees F.I.C.A. Fund.
7. **Nonexpendable Trust.** A prior period adjustment was made to recognize the cumulative effect of an accounting error in recording investments at June 30, 1980 in the Purdue Trust Principal Fund.

D. RECLASSIFICATION OF FUNDS

In order to conform with *Governmental Accounting, Auditing, and Financial Reporting,* fund type definitions as disclosed in the Auditor's Report on the June 30, 1980 Annual Report of the Auditor of State, several funds of the State of Indiana had to be reclassified from one fund type to another. Such funds were reclassified from:

In addition certain accounts within the General Fund representing biennial construction projects were removed from the General Fund and set up in a Capital Projects Fund titled "General Fund Construction."

E. CONTINGENT LIABILITIES

Annually at December 31, the Attorney General of the State of Indiana reports to the Governor on the total amount of tort claims outstanding against the state. At December 31, 1980, the Attorney General reported $170 million in tort claims and pending lawsuits against the state as well as 39 lawsuits which are open-ended in demand. Based upon past performance, representatives of the Attorney General's Office have indicated that they do not believe that a significant portion of claims and lawsuits will proceed to judgment against the state.

F. LONG-TERM CONSTRUCTION CONTRACTS

The State of Indiana has entered into long-term commitments for highway construction of approximately $108.8 million.

G. DEFICIT FUND BALANCES

The following funds show a deficit balance as of June 30, 1981:

Fund	Amount
Construction, Soldiers and Sailors Children's Home (Cash)	$(374,028.61)

STATISTICAL TABLES

STATE OF INDIANA
STATISTICAL TABLES
TEN YEAR STATE SCHEDULES

Ten year statistical tables concerning expenditures and revenues in government funds and cash balances in all funds are as follows:

1. Expenditures by Function — Last Ten Fiscal Years — All Governmental Fund Types
2. Revenues by Source — Last Eight Fiscal Years — All Governmental Fund Types
3. Tax Revenues by Source — Last Eight Fiscal Years — All Governmental Fund Types
4. Cash Statement — Last Ten Fiscal Years — All Funds

NOTE 1: The computer accounting system in use in the Auditor of State's Office was installed in 1974. Prior to that time, detailed records by source of revenue were not maintained for all governmental type funds and accounts of the state. Therefore, only eight years of revenue by source type information are presented in these schedules.

* Included in General and Special Revenue Funds in prior years.
** Restatement of funds, see Footnote D.

STATISTICAL TABLES
TEN YEAR COUNTY SCHEDULES

Ten year statistical tables concerning property values and tax levies by county are presented on a calendar year basis. Schedules presented are:

1. Property Tax Levies By County — Last Ten Calendar Years
2. Assessed Value of Taxable Property By County — Last Ten Calendar Years

Public Law 47, Acts of 1975 required a general reassessment of the real property of all the counties of the state beginning January 1, 1976 to be completed on or before March 1, 1978 as the basis for the taxes payable in 1979. Public Law 32, Acts of 1978 delayed the completion date to March 1, 1979 for taxes payable in 1980. Public Law 60, Acts of 1979 instituted the Homestead Credit to allow an additional credit to homeowners above the property tax replacement credit (See Note 2, below) as follows:

Taxes Payable	Credit
1980	10%
1981	8%
1982	6%
1983	4%
1984	2%
1985 and after	0%

NOTES TO TEN YEAR COUNTY SCHEDULES

NOTE 1: Due to pending litigation, the Auditor of Vermillion County was unable to file the necessary statements to be included in this report for 1980 taxes payable in 1981.

NOTE 2: Public Law 45, Acts of 1973 instituted the Property Tax Replacement Credit to allow a 20% credit for property taxes payable in 1974 and thereafter, funded by one-half of the 4% general sales tax.

INTRODUCTION TO THE SUPPLEMENT (BOOK II)

This book includes the statement of Distribution of Motor Vehicle Highway Funds for the fiscal year 1981. The 1980 statement is also included for comparison, since it was not included in last year's annual report. There is a listing of current expenditures and encumbrances for the year ended June 30, 1981 by principle and subclass. Also included are county statistical tables on the Valuation of Property 1980 Payable 1981, Amount and Kind of Taxes Levied for the year 1980 Payable 1981, Collection and Distribution of Property Taxes June and December 1979 Payable 1980 Settlements.

The second part of this supplement deals with the statement of Appropriations, Allotments and Expenditures which is the listing of all the state accounts, and the information pertaining to those accounts. There is also a Detailed statement of Revenue Received, Refunded and Transferred.

STATE OF INDIANA
STATISTICAL TABLES
FISCAL YEAR ENDED JUNE 30, 1981 ACCOUNT ACTIVITY

Statistical tables concerning detailed activity by individual account within each fund are as follows:

1. Detailed Statement of Revenue Received, Refunded and Transferred
2. Statement of Appropriations, Allotments and Expenditures

For the purpose of these statements, an account is defined as a separate revenue or appropriation account within a fund assigned to a particular agency of the state to account for that agency's operations as a distinct part of that particular fund. These statements are not necessary for generally accepted reporting, but are used as management information by the Legislature, the Governor, the State Budget Agency and the Auditor of State in keeping track of a certain agency's operations as they pertain to the whole of the state, and by the agencies themselves in controlling their own operations. The account number shown in these statements may be read as follows: The first three digits shown denote the fund involved; the second three digits are the account number assigned; the third set of digits shown indicate the agency to which the account is assigned. The first three digits denote the fund as follows:

100-199	General Fund
200-499	Special Revenue
500-599	Internal Service

Within the General Fund these numbers are further refined into classifying the type of account involved. These distinctions are:

100 & 102	General Fund Appropriation Accounts
101	General Fund Continuing Appropriation Accounts (non reverting)
11	General Fund Biennial Appropriation Accounts (third digit indicates biennial ending year, eg., 111, 113, . . . , 119)
120	Tort Claims Paid from General Fund
148	County Adjusted Gross Income Tax Accounts (the tax is collected for and distributed to the adopting counties by the state)
15	General Fund Construction Accounts (third digit indicates biennial ending year, eg., 151, 153, . . . 159)

Some of the terminology used in these statements will be unfamiliar to the average reader. The term "Quietus" used in the Detailed Statement of Revenue, Received, Refunded and Transferred, indicates the total amount received by the Treasurer of State, receipted by the Auditor of State, to an individual revenue or appropriation account, whether true revenue or refund of expenditures. Amounts are then adjusted on the statement to arrive at net revenue.

The legend for the "Object" column of the Statement of Appropriations, Allotments and Expenditures is as follows:

0	Legislative Appropriations
00	Revenue Received and Appropriated
000	Balance Carried Forward
*	Appropriation and Allotment Reversion

Principal Objects of Expenditures:

1	Personal Services
2	Services Other Than Personal
3	Services By Contract
4	Materials, Parts and Supplies
5	Equipment
6	Lands and Structures
7	Grants, Subsidies, Refunds, Awards
8	In-State Travel
9	Out-Of-State Travel

The digit "1" after an object of expenditures indicates a payment on a purchase order encumbered in a prior year.
